Q Join the event

We are launching this event to let our users experience our handy platform firsthand.
The total prize of this event is 10000 USD.

You can stake HSF into the product to claim for share.
Income will be distributed according to your share in the product.

Stakes will be decided according to following formula; $\text{Your Invested HSF Amount} / \text{Total Invested HSF Amount}$.

Investors can either stake more HSF into a product or give up their shares
in the product by liquidating their assets in ETH through a decentralized exchange.

An HSF / ETH Pol is created in Uniswap.
You can trade for HSF in Uniswap.

HSF was initially listed in Uniswap with the value of 1 USD.

Maximize your profit by comparing the expected revenue of the product and the price of HSF in Uniswap.

HSF will be listed on SushiSwap at 10th September 15:00 UTC

The initial price of HSF will start from 1 Dollar.

※HSF will be supplied only from the Pool Reserve,
and the currently circulating supplies are from Marketing portion of our token distribution plan.
